

EARTHLY NEWS!

Sustainable Development Initiatives of the Taylor Smith Group

International News

- In this issue:**
- Energy Efficiency at Sofap
 - Recycling of plastic at Aqualia
 - The GloFouling Partnerships
 - Aquaponics @ Aqua Science
 - Clean Up @ Proflage

As the Climate Week unfolded in New York City, from September 23 to 29, millions of youth and adults gathered on the streets around the world to demand climate justice, requesting urgent action to tackle global heating. The overall message on the streets was unified – a powerful demand to cut emissions and stabilise the climate as world leaders still fall short of their promises under the Paris Agreement.

Whats'up in the Taylor Smith Group ?

A campaign for energy efficiency with the aim of reducing it's emissions was launched by Sofap at the start of the month. Before that, the opinion of the employees of Sofap was sought in a survey. The results were displayed on the posters in order to encourage people to take action.

Reuse—Recycle plastic waste @ Aqualia

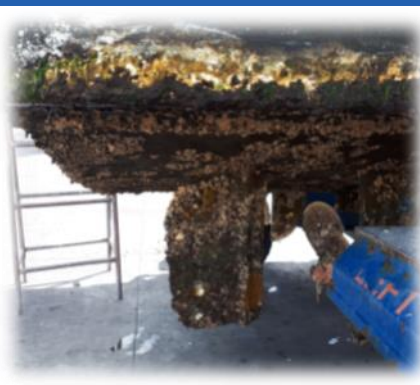

Plastic waste was sorted. Waste that cannot be recycled at Aqualia will be sent to another recycler.

Plastic waste stored for reuse

Partnership for the goals @ Taylor Smith Marine

The GloFouling Partnerships is an initiative of the IMO in collaboration with the UNDP and GEF to protect marine ecosystems from the negative effects of invasive species. Twelve countries, including Mauritius will spearhead the work of the GloFouling Project as Lead Partnering Countries. Taylor Smith Marine has been selected to work in collaboration with the Shipping division of the Ministry of Ocean Economy and the Mauritius Oceanography Institute. Through it's contribution to the GloFouling Project, Taylor Smith Marine will address SDGs 14 (Life Below Water), SDG 13 (Climate Action) and SDG 15 (Life on Land).

Aquaponics project @ Aqua Science

The test for Aquaponics agriculture at Aqua Science was a success. Aqua Science will now partner with a social organisation to provide the system to underprivileged people.

Clean up & vegetable garden @ Profilage
